

## Why Buy a PreVent Outdoor Air Conditioner Filter!

According to EPA research, 0.042 inch (1/23 of an inch) of dirt on an air conditioning coil can reduce its cooling efficiency by 21%.

**Dirty Coils are Costing You Money!**

**Prevent the Damage Before It's Too Late**

Debris clogged condenser fins and dirty coils reduce air flow, reduce heat transfer, and cause the compressor to run-on and over heat.

This means decreased equipment life with increased maintenance, repair and operating costs.

**Preventing Equipment Damage is Easy!**

This Outdoor Air Filter is designed to prevent outdoor debris caused by construction dust, dryer lint, bugs, seeds, leaves or grass clippings from getting sucked into your outdoor air conditioner coil.

**Rinsing the PreVent Air Filter is a lot easier than cleaning your outdoor air conditioner coil.**

## Permatron PreVent Wrap Around Air Filter for the Outdoor Air Conditioner

**Average Arrestance  
Efficiency 42%**

**Dust Holding Capacity 67  
GRAMS**

**Initial Air Flow Resistance  
0.02" WG**

# ***Permatron "PreVent" Air Filter for the Outdoor Air Conditioner Wrap-Around Style Equipment Protection Filter 02/2007***

## ***Preventing The Damage Is Easy!***

This filter is designed to fit any central air conditioning unit and promote maximum air flow! Permanent and washable, this electrostatic filter contains UV protection that won't break down over time. No system modifications are needed.

**1.** The enclosed filter wraps around the outside of the air intake louvers or fins of your air conditioning unit. Wrap the filter around the unit, aligning the top edge of the filter with the top of the air intake area. If the filter is taller than your unit, excess filter should be folded under at the bottom.

**2.** The filter is held in place across the rear of the unit by bungee cords (enclosed). Attach one each at the top, middle and bottom of the filter by hooking cord ends directly through the woven filter media. If the filter is longer than the circumference of your unit, excess filter may be folded under at the edges.

## **Maintenance and Cleaning:**

The filter should be rinsed clean monthly or as needed. Remove the filter from the air conditioning unit and rinse with water. Back flushing with garden hose recommended. Shake off excess water and reinstall filter with bungee hooks. Filter can be sprayed with a dish detergent if necessary. Rinse thoroughly.

**PreVent WA1 - 25" Height x 80" Length Price \$42.00**

**PreVent WA2 - 30" Height x 100" Length Price \$42.00**

**PreVent WA3 - 38" Height x 110" Length Price \$42.00**

**Average Arrestance Efficiency 42%**

**Dust Holding Capacity 67 GRAMS**

**Initial Air Flow Resistance 0.02" WG**

### **Permatron 5 YEAR WARRANTY**

Permatron takes pride in the quality and workmanship of our products. All are built to give years of trouble-free service. Any filter found to be defective in workmanship or materials, when returned to Permatron shipping charges prepaid, will be repaired or replaced without charge. With proper care and regular cleaning, your Permatron filter should last many years. US Patent 6,793,715
